

FOR IMMEDIATE RELEASE

**ALM Positioners Exhibiting at FABTECH 2015
Booth N26049**

September, 2015 - Rock Island,
Illinois

ALM POSITIONERS will be
displaying at **FABTECH 2015**,
Booth N26049.

Visitors to their booth will be
able to view some of their unique
positioners as well as talk with
knowledgeable personnel who can

answer questions and show them how **ALM Positioners** eliminate
dangerous positioning using slings, belts, chain transfers and screw systems
allowing the operator to safely raise and position his weldments or
assemblies to a convenient height and working position. **ALM Positioners**
can be custom designed to meet your specific requirements and provide
improved weld quality; simplified tool access; consistent repeatable assembly
procedures; higher productivity and reduced consumables; proper
ergonomics with reduced operator fatigue and injury risk; and higher
throughput and profits.

ALM Positioners is a U.S. manufacturer of unique headstock/
tailstock positioner lifts. Manufactured in Rock Island, Illinois, in a state of
the art manufacturing facility, ALM's unique positioner designs have proven
to be a more cost effective equipment investment that improves safety for
welder and operator and improves weld quality while boosting production
throughput as much as 35%.
